Electronics & Telecommunication Engineering			
These programs are meant for basically those professionals who are already working in technical departments of the corporate sector. These courses enable our students to go ahead and achieve the higher profiles in their respective organizations through a high profile curriculum.			
Course	**Diploma in Electronics & Telecommunication Engineering**	**Bachelors Program in Electronics & Telecommunication Engineering**	**Master in Electron Telecommunication Engineering**
Eligibility Criteria	**S.S.C with Work Experience**	**3 Years Diploma or HSC with 3 years Work Experience**	**Graduate or Diploma with 5 years Work Experience**
Syllabus	**PART I**	**SEM-I**	**SEM-I**
	Engg. Mechanics	Engg. Mechanics	Engg. Mechanics
	Engg Drawings	Engg. Drawings	Engg Drawings
	Electronic Circuits	Electronic Circuits	Electronic Measurement & Instrumentations
	PART II	Engg.Mathematics	Engg Physics
	Electronic Measurement & Instrumentations	**SEM-II**	Digital Signal Processing
	Digital Communication	Engg Physics	**SEM-II**
	Digital Signal Processing	Digital Communication	Communication Engg
	PART III	Digital Signal Processing	Electrical, Electronics & Telecommunication Engg
	Communication Engg	Power Electronics	Power Electronics
	Electrical, Electronics & Telecommunication Engg.	**SEM-III**	Robotics & Industrial Automation
	Power Electronics	Communication Engg	
		Electrical, Electronics & Telecommunication Engg	Digital Communication
		Telecommunication Engg	
		Computer Organization	Electromagnetic Field
		Electromagnetic Field	

		SEM-IV	
		Mobile Communication	
		Robotics & Industrial Automation	
		Electronic System Design	
Course Duration	**1 – 3 Years**	**1 – 4 Years**	**1-2 Years**
	27,500/-	**RS. 37,500/**	**RS. 34,500/**
